ANDREW LIN

Full-stack / Front-end Web Developer

EXPERIENCES

Yumso | COO / SWE | Seattle, WA   *AUG 2019 - NOV 2019*
- Redesigned our webpage layout and font size & added sorting function using React.js, promoted our platform by organizing promotion events with merchants, increased the average amount of new register users to 1000 per month;
- Solicited restaurants and private chefs to join our platform by offering management devices, photography services, etc., successfully attracted 20+ merchants to register.
- Optimized the dispatch system by adding 'drag to dispatch' & 'new order notification' function using react-grid-layout, node.js, nodemailer, significantly increased delivery on-time rate to above 90%.
- Due to high volume demand during holidays, utilized service from a third-party delivery company by generating RESTful API for them to update delivery information(e.g., driver location), successfully handled over 250 orders per day.

PROJECTS

React-Bookshelf
reactbookshelf.herokuapp.com | github.com/andrewlin618/React-Bookshelf
A web application for reading-lovers to search books and store into their personal online bookshelf.
- Designed and built all frontend framework and components;
- Designed and implemented backend routes, controllers models for the database;
